Google, Coursera.

08/2022 - 01/2023.

LANGUAGES

Inglés - C2 Proficient (74/100)

Spanish - Native speaker.

PROJECTS

Portfolio

A dynamic and user-friendly single-page application built using React. I've used TypeScript to ensure my code was clear. The design of the site was created using pure CSS, with animations implemented using Framer Motion. Navigation was made intuitive through the use of React Router.
